

## **PeopleSoft Administrator**

Ideally you will have been part of a PeopleSoft Infrastructure team as a PeopleSoft System Administrator . You must have relevant IT work experience with at least three to four years PeopleSoft experience and participated in PeopleSoft projects in the technical/ infrastructure area.

Ideally you will have proven System Admin working experience within a large corporation running PeopleSoft HR, CS, and Financials on an Oracle platform.

To succeed in this role the following requirements are requested:

- Experience working within a large, complex IT environment
- People Tools 8.49 and 8.51 experience
- Oracle database
- Linux servers
- Weblogic

It is crucial that you can demonstrate a high level of communication, both oral and written, as this is a prerequisite for this position. Also the ability to relate to a diverse range of people using your excellent interpersonal skills will be essential for success.

Phone Paula confidentially for further information and a thorough job description.
